## EXPERIENCE

2023-

### FREELANCER

*Upwork Company*

After finishing high school I started freelancing as a means to gain experience and knowledge. I took on a multitude of web scraping projects which helped me enhance my skills. You can see my freelancing projects on my UpWork profile: <https://www.upwork.com/freelancers/~01ea7cfb50af032c62>

## PROJECTS

**GITHUB:** <https://github.com/Ricy-Pro>

### ACIEE - HACKATHON, NOV 2022

- Participated in a 72 hour long Hackathon and won third place
- Managed a team of 3 people taking the role of group leader.
- Created a complex Matlab project that checks different objects parameters using image processing technologies.
- Learned important leadership, project management, and go-to-market skills.

### Other Hackathons:

- **IT Creativity Contest “Severin Bumbaru”- Web Design:** -2021(4th place)  
-2022(3rd place)  
-2023

**Some of my personal projects** are focused on web scraping static and dynamic websites using Python and Python Frameworks such as BeautifulSoup and Selenium.

All of the projects can be found on my GitHub
